## Introduction

This Excel macro and VBA training comes with a comprehensive curriculum, yet it is just 1+ hours of video tutorial. The course has year-round unlimited access with study material, downloadable Excel templates and an online certificate. The whole course is divided into separate chapters, each elaborating on a particular topic or VBA concept. There will be a small test at the end of the course; once you pass it with a satisfactory score, you will receive a certificate from WallStreetMojo.

The Excel macro training course is guided by finance industry experts who will also help you understand the importance of Excel VBA by sharing some professional insights and personal experience in the corporate world. You can access macro courses online from anywhere. You don't have to attend any online Excel macro class or follow a schedule. You will have plenty of time to learn the VBA skills at your own pace. Stop wasting time; hurry; this is the only macro and VBA course you will ever need.
